JinkoSolar Signed A Cooperation Agreement with Quantum Power GK in Japan

June 12, 2017

SHANGHAI, June 12, 2017 /PRNewswire/ -- JinkoSolar Holding Co., Ltd. ("JinkoSolar" or the "Company") (NYSE: JKS), a global leader in the photovoltaic (PV) industry, today announced that its Japan subsidiary ("Jinko Japan") has entered into a 187MW Cooperation Agreement (the "Agreement") with Quantum Power GK, a Japanese company within Quantum Group.

Quantum Group is a global company leader in the renewable energy industry providing project development, engineering, financing, EPC contracting and asset management including O&M services with more than 4 GW developed worldwide. In accordance with the Agreement, Jinko Japan will exclusively supply 187MW worth of 275Wp modules for three projects of Quantum Power in Japan located in Ibaraki, Gunma and Mie prefecture (the "Projects"). The last one is the largest integrated renewable project for Quantum, located in Matsuzaka, Mie prefecture, 330 km southwest of Tokyo. The project will operate a solar power plant, which generates 127,500 MWh per year and provides clean energy nearly to 90,000 households in the region. The power plant will start construction from July 2017 and is scheduled to complete by November 2018. The shipment of the modules for the Projects is supposed to commence in the fourth quarter of 2017.

"We are excited to build a partnership with JinkoSolar -- an innovative leader in the Solar Industry," said Lluís Torrent, Managing Director of Quantum Power Japan. "We are always looking to support and join with innovators and companies that we know will provide the most value to our solar customers."

"We are pleased to enter into this strategic relationship with Quantum Power GK," commented Mr. Gener Miao, JinkoSolar's Vice President of Global Sales and Marketing. "Our influence in the Japanese market will further increase and our efforts to support our customers in Japan will be greatly enhanced through this new relationship."
