JinkoSolar Delivers TOPCon Bifacial Modules to the Largest Project in Bulgaria

June 27, 2023

MUNICH, June 27, 2023 /PRNewswire/ -- JinkoSolar Holding Co., Ltd. ("JinkoSolar" or the "Company") (NYSE: JKS), one of the largest and most innovative solar module manufacturers in the world, today announced that it has delivered more than 220,000 Tiger NEO bifacial 72 modules to the 123 MW Verila Solar Power Plant in Bulgaria.

The Verila plant is Bulgaria's largest PV project to date and is expected to increase the nation's solar power generation capacity by 7%. It is located on the southern slope of Verila Mountain close to the village of Kraynits, near Dupnitsa, on a land plot of over 1300 acres. Its location at 700-1000 meters above sea level on uneven terrain with steep slopes makes the project one of the most challenging but yet most attractive in Europe.

Mr. Frank Niendorf, General Manager of JinkoSolar Europe, commented, "We are delighted that Jinko TOPCon bifacial modules have been chosen for this impressive mega project in Bulgaria. The Verila project will become not only a Bulgarian benchmark, but also a Pan-European one for renewable energy transition. It is one of the largest projects ever built in Europe using TOPCon bifacial modules, and JinkoSolar is very proud to be a part of such an important milestone for our industry".
