JinkoSolar Successfully Connects Two Solar PV Projects Totaling 39MW to the Grid in Jiangsu Province

April 16, 2014

SHANGHAI, April 16, 2014 /PRNewswire/ -- JinkoSolar Holding Co., Ltd. ("JinkoSolar" or the "Company") (NYSE: JKS), a global leader in the solar PV industry, today announced that its 24MW solar PV power plant in Xinyi, Jiangsu Province and 15MW solar PV power plant in Lianyungang, Jiangsu Province were successfully connected to the grid. The company has so far successfully connected to the grid for more than 252 MW of solar PV power projects.

The 24MW Xinyi and 15MW Lianyungang power plants were granted blended 20-year subsidies of 1.125 RMB/KWh and 1.1 RMB/KWh, respectively, including subsidies from the local government. Both locations are among areas with the highest insolation level in Jiangsu Province.

"These two new projects are just the beginning as we focus on improving our competitive position in project development in China," commented Mr. Xiande Li, Chairman of JinkoSolar. "Having been successful in Western China, we are now expanding our downstream business into China's eastern provinces. The addition of these two successful projects demonstrates our commitment to expanding eastward as we continue to grow our PV project portfolio in 2014."

About JinkoSolar Holdings Co., Ltd.

JinkoSolar is a global leader in the solar PV industry with production operations in Jiangxi and Zhejiang Provinces in China and sales and marketing offices in Shanghai and Beijing, China; Munich, Germany; Bologna, Italy; Zug, Switzerland; San Francisco, the United States; Queensland, Australia; Ontario, Canada; Singapore; Tokyo, Japan and Cape town, South Africa.

JinkoSolar has built a vertically integrated solar product value chain, with an integrated annual capacity of approximately 2.0 GW each for silicon ingots, wafers and solar cells and approximately 2.1 GW for solar modules, as of March 31, 2014.
