JinkoSolar Supplies 3 MW of PV modules to EMSULA for Honduras' Largest Rooftop System

April 27, 2015

SHANGHAI, April 27, 2015 /PRNewswire/ -- JinkoSolar Holding Co., Ltd. ("JinkoSolar" or the "Company") (NYSE: JKS), a global leader in the PV industry, today announced that it has supplied approximately 3 MW of PV modules to Embotelladora de Sula S.A. ("EMSULA") for Honduras' largest rooftop solar system, which is also the largest solar PV rooftop project in Central America.

Located in San Pedro Sula, the approximately 3MW rooftop project covers an area of 34,000 M² and sits on top of a modern production facility for bottled soft drinks, juices and purified water. The project is developed by Smartsolar, a company dedicated to the development of photovoltaic projects on roofs for commercial and industrial use in Central America. The project was successfully completed in March, 2015.

The project uses 11,650 pieces of JinkoSolar's high-efficiency PV modules that will produce approximately 3,815,830 kWh of electricity per year and reduce emissions by nearly 1263.6 tons of CO₂ annually.

Mr. Alberto Cuter, JinkoSolar's Sales Director for Emerging Markets commented: "Energy prices tend to be higher in Central America than elsewhere given the region's dependence on imported fossil fuels which accounts for 45% of all energy generated. For countries that rely disproportionately on oil for power generation, volatility of energy prices forces people to plan for the medium to long-term, and solar becomes the best substitution of energy. We are proud to supply JinkoSolar modules for this project that makes this rooftop system not only the largest in Central American but also an example to the rest of the region."

Ramzy Massu, General Manager of Smartsolar said, "We are very proud to work with JinkoSolar on this meaningful project in Central America. This project was 100% designed, supervised and installed by Hondurans. Smartsolar has built the largest rooftop solar system in Central America, placing Honduras on the world map in solar section. "

About JinkoSolar Holding Co., Ltd.

JinkoSolar (NYSE: JKS) is a global leader in the solar industry. JinkoSolar distributes its solar products and sells its solutions and services to a diversified international utility, commercial and residential customer base in China, the United States, Japan, Germany, the United Kingdom, Chile, South Africa, India, Mexico, Brazil, the United Arab Emirates, Italy, Spain, France, Belgium, and other countries and regions. JinkoSolar has built a vertically integrated solar product value chain, with an integrated annual capacity of 2.5 GW for silicon ingots and wafers, 2.0 GW for solar cells, and 3.2 GW for solar modules, as of December 31, 2014. JinkoSolar also sells electricity in China, and has connected approximately 500 MW of solar power projects to the grid, as of December 31, 2014.

JinkoSolar has over 13,000 employees across its 4 production facilities in Jiangxi and Zhejiang Provinces, China, Portugal and South Africa, 12 global sales offices in China, Spain, the United Kingdom, the United Arab Emirates, Jordan, Saudi Arabia, Egypt, Morocco, Ghana, Brazil, Costa Rica and Mexico and 11 oversea subsidiaries in Germany, Italy, Switzerland, the United States, Canada, Australia, Singapore, Japan, India, South Africa and Chile.
